Hi Dejan / Dali,

Blaze advisor 7.1 now is recommended as the rules standard tool, instead of 6.9.

All you need to do is to install Blaze Advisor 7.1 plugin on [REDACTED], then you can get all Blaze perspective from [REDACTED], the main functionality is pretty much the same, and it integrates with [REDACTED] better than the older version.

Please let me know if you have any questions.

Regards,  
Tony
